

# HITACHI - LR140422E

 A photograph of a VRG4673 regulator component. It is a rectangular metal component with a silver-colored top surface. The top surface has the text "H0212" and "12V" printed on it. There are two circular mounting holes on the top surface. The component has several pins extending from the bottom. A faint "WOOD AUTO" watermark is visible over the image.
